Module 1: Python Statistics for Data Science

Introduction of Python Programming

- ❖ What is Python
- ❖ Installing Python
- ❖ How to Execute Python program?
- ❖ Getting Help
- ❖ Python IDEs
- ❖ List the Advantages/Disadvantages of Python

Python Fundamentals

- ❖ Literals
- ❖ Keywords
- ❖ Identifiers
- ❖ Variables
- ❖ Statement
- ❖ Expression
- ❖ Python Indentation
- ❖ Exercise for Practice
- ❖ Comments in Python

Python Data Type

- ❖ Booleans
- ❖ Numbers
- ❖ Strings
- ❖ Bytes
- ❖ Lists and sets
- ❖ Tuples
- ❖ Dictionaries
- ❖ Exercise for Practice

String Objects and Collection

- ❖ String Object Basics
- ❖ String Methods
- ❖ Splitting and joining strings
- ❖ String Format Functions
- ❖ List object Basics
- ❖ List Methods

Operators in Python

- ❖ Arithmetic operators
- ❖ Comparison operators

- ❖ Logical operators
- ❖ Bitwise operators
- ❖ Identity operators
- ❖ Membership Operators

Python Namespace

- ❖ About Python Namespace
- ❖ Local Namespace
- ❖ Global Namespace
- ❖ Built-in Namespace
- ❖ Name Conflict

List, Tuples, Set and Dictionaries

- ❖ Create the List
- ❖ Accessing the List
- ❖ Indexing and Slicing Lists
- ❖ Iterate a list in Python
- ❖ List Operations
- ❖ Searching elements in a List
- ❖ Sorting a list in Python
- ❖ Built- in List Function

- ❖ What is Tuples?
- ❖ Tuples Operation
- ❖ Difference between List and Tuples
- ❖ What is Dictionary?
- ❖ Dictionary Operation
- ❖ What is Set in python?

Decision Making Loops in Python

- ❖ Python if, if-else, else-if, nested-if
- ❖ Python Loops (for, while)
- ❖ Python break Keyword
- ❖ Python continue Key word

Modules

- ❖ What is Module?
- ❖ How to import a Module?
- ❖ Import module
- ❖ The from... import statement
- ❖ The from...import* statement use
- ❖ Accessing Modules form another Directory
- ❖ Packages

- ❖ How to use packages in Python?
- ❖ Import modules form a Package
- ❖ Exercise for Practice

Functions

- ❖ Introduction to Function
- ❖ Defining a Function
- ❖ Calling a Function
- ❖ Function Arguments
- ❖ What are Args and Kwargs in Python?
- ❖ Built-in Function
- ❖ Scope of the Variables
- ❖ Passing function to a Function
- ❖ Decorators
- ❖ Recursion Concept
- ❖ Iterators
- ❖ Nested Statements
- ❖ Lambda Functions
- ❖ Map, Reduce & filter functions
- ❖ List Comprehensions

File Handling Using Python

- ❖ How to create a File?
- ❖ Writing data to a File
- ❖ Reading data from a file using various read Methods
- ❖ Additional file Methods
- ❖ Pickling and Unpicking in Python

Module 2: Python Programming - Expert Level

Object Oriented Programming in Python

- ❖ OOPS basic concepts
- ❖ Class and Object
- ❖ Use of self in OOPS
- ❖ Constructors
- ❖ Accessor & Mutator in Python
- ❖ Inheritance
- ❖ Polymorphism
- ❖ Method Overriding
- ❖ Special methods

Regular Expressions

- ❖ Intro to Regular Expression
- ❖ Use of the re Library
- ❖ Use of Match () and Search () Method in Regular Ex
- ❖ Grouping
- ❖ Replace with sub () Method
- ❖ Use of Special Characters
- ❖ Flags

Exception Handling in Python

- ❖ Python Error
- ❖ Python Exception
- ❖ Handle the Exception
- ❖ What is Try, finally and Except
- ❖ Use of the Python Built-in Exception
- ❖ Most common exception errors in Python

Accessing Data from Multiple Source

- ❖ Reading and writing data from Local Files (.txt,.csv,.xls, json, etc)

- ❖ Reading data from Remote Files.
- ❖ Exercise for Practice

Module 3: Databases – MySQL and SQL Queries

Python - MySQL

- ❖ Introduction to MySQL
- ❖ What is the MySQL dB?
- ❖ How do I Install MySQL dB?
- ❖ Connecting to the MYSQL
- ❖ Selecting a database
- ❖ Adding data to a table
- ❖ Executing multiple queries
- ❖ Exporting and Importing data tables.

SQL Functions

- ❖ Single Row Functions
- ❖ Character Functions, Number Function, Round, Truncate, Mod, Max, Min, Date

General Functions

- ❖ Count, Average, Sum, Now etc.

Joining Tables

Obtaining data from Multiple Tables

Types of Joins (Inner Join, Left Join, Right Join & Full Join)

Sub-Queries Vs. Joins

Operators (Data using Group Function)

Distinct, Order by, Group by, Equal to etc.

Database Objects (Constraints & Views)

- ❖ Not Null
- ❖ Unique
- ❖ Primary Key
- ❖ Foreign Key

Structural & Functional Database Testing using TOAD Tool

- ❖ SQL Basic
- ❖ SQL Introduction
- ❖ SQL Syntax
- ❖ SQL Select

- ❖ SQL Distinct
- ❖ SQL Where
- ❖ SQL And & Or
- ❖ SQL Order By
- ❖ SQL Insert
- ❖ SQL Update
- ❖ SQL Delete
- ❖ SQL Advance
- ❖ SQL Like
- ❖ SQL Wildcards
- ❖ SQL In
- ❖ SQL Between
- ❖ SQL Alias
- ❖ SQL Joins
- ❖ SQL Inner Join
- ❖ SQL Left Join
- ❖ SQL Right Join
- ❖ SQL Full Join
- ❖ SQL Union
- ❖ SQL Functions
- ❖ SQL Avg()
- ❖ SQL Count()
- ❖ SQL First()
- ❖ SQL Last()

- ❖ SQL Max()
- ❖ SQL Min()
- ❖ SQL Sum()
- ❖ SQL Group By

Module 4: Data Science Master's Program

Introduction to Data Science

- ❖ What is Analytics & Data Science?
- ❖ Common Terms in Analytics
- ❖ What is data?
- ❖ Classification of data
- ❖ Relevance in industry and need of the hour
- ❖ Types of problems and business objectives in various industries
- ❖ How leading companies are harnessing the power of analytics?
- ❖ Critical success drivers
- ❖ Overview of analytics tools & their popularity
- ❖ Analytics Methodology & problem-solving framework
- ❖ List of steps in Analytics projects
- ❖ Identify the most appropriate solution design for the given problem statement

- ❖ Project plan for Analytics project & key milestones based on effort estimates
- ❖ Build Resource plan for analytics project
- ❖ Why Python for data science?

Accessing/Importing and Exporting Data

- ❖ Importing Data from various sources (Csv, txt, excel, access etc)
- ❖ Database Input (Connecting to database)
- ❖ Viewing Data objects - sub setting, methods
- ❖ Exporting Data to various formats
- ❖ Important python modules: Pandas

Data Manipulation: Cleansing - Munging Using Python Modules

- ❖ Cleansing Data with Python
- ❖ Filling missing values using lambda function and concept of Skewness.
- ❖ Data Manipulation steps (Sorting, filtering, duplicates, merging, appending, sub setting, derived variables, sampling, Data type conversions, renaming, formatting).
- ❖ Normalizing data
- ❖ Feature Engineering

- ❖ Feature Selection
- ❖ Feature scaling using Standard Scaler/Min-Max scaler/Robust Scaler.
- ❖ Label encoding/one hot encoding

Data Analysis: Visualization Using Python

- ❖ Introduction exploratory data analysis
- ❖ Descriptive statistics, Frequency Tables and summarization
- ❖ Univariate Analysis (Distribution of data & Graphical Analysis)
- ❖ Bivariate Analysis (Cross Tabs, Distributions & Relationships, Graphical Analysis)
- ❖ Creating Graphs- Bar/pie/line chart/histogram/ boxplot/ scatter/ density etc.)
- ❖ Important Packages for Exploratory Analysis (NumPy Arrays, Matplotlib, seaborn, Pandas etc.)

Introduction to Statistics

- ❖ Descriptive Statistics
- ❖ Sample vs Population Statistics
- ❖ Random variables
- ❖ Probability distribution functions
- ❖ Expected value

- ❖ Normal distribution
- ❖ Gaussian distribution
- ❖ Z-score
- ❖ Central limit theorem
- ❖ Spread and Dispersion
- ❖ Inferential Statistics-Sampling
- ❖ Hypothesis testing
- ❖ Z-stats vs T-stats
- ❖ Type 1 & Type 2 error
- ❖ Confidence Interval
- ❖ ANOVA Test
- ❖ Chi Square Test
- ❖ T-test 1-Tail 2-Tail Test
- ❖ Correlation and Co-variance

Introduction to Predictive Modelling

- ❖ Concept of model in analytics and how it is used?
- ❖ Common terminology used in Analytics & Modelling process
- ❖ Popular Modelling algorithms
- ❖ Types of Business problems - Mapping of Techniques
- ❖ Different Phases of Predictive Modelling

Data Exploration for Modelling

- ❖ Need for structured exploratory data
- ❖ EDA framework for exploring the data and identifying any problems with the data (Data Audit Report)
- ❖ Identify missing data
- ❖ Identify outliers' data
- ❖ Imbalanced Data Techniques

Data Pre-Processing & Data Mining

- ❖ Data Preparation
- ❖ Feature Engineering
- ❖ Feature Scaling
- ❖ Datasets
- ❖ Dimensionality Reduction
- ❖ Anomaly Detection
- ❖ Parameter Estimation
- ❖ Data and Knowledge
- ❖ Selected Applications in Data Mining
- ❖ Principal Component Analysis (PCA) in python

Module 5: Machine Learning

Introduction to Machine Learning

- ❖ Artificial Intelligence
- ❖ Machine Learning
- ❖ Machine Learning Algorithms
- ❖ Algorithmic models of Learning
- ❖ Applications of Machine Learning
- ❖ Large Scale Machine Learning
- ❖ Computational Learning theory
- ❖ Reinforcement Learning

Techniques of Machine Learning

- ❖ Supervised Learning
- ❖ Unsupervised Learning
- ❖ Semi-supervised and Reinforcement Learning
- ❖ Bias and variance Trade-off
- ❖ Representation Learning

Regression

- Regression and its Types
- Logistic Regression
- Linear Regression
- Polynomial Regression

Classification

- ❖ Meaning and Types of Classification
- ❖ Nearest Neighbor Classifiers
- ❖ K-nearest Neighbors
- ❖ Probability and Bayes Theorem
- ❖ Support Vector Machines
- ❖ Naive Bayes
- ❖ Decision Tree Classifier
- ❖ Random Forest Classifier

Unsupervised Learning: Clustering

- ❖ About Clustering
- ❖ Clustering Algorithms
- ❖ K-means Clustering
- ❖ Hierarchical Clustering
- ❖ Distribution Clustering

Model optimization and Boosting

- ❖ Ensemble approach
- ❖ K-fold cross validation
- ❖ Grid search cross validation
- ❖ Ada boost and XG Boost

Module 6: Deep Learning

Introduction to Deep Learning

- ❖ What are the Limitations of Machine Learning?
- ❖ What is Deep Learning?
- ❖ Advantage of Deep Learning over Machine learning
- ❖ Reasons to go for Deep Learning
- ❖ Real-Life use cases of Deep Learning

Deep Learning Networks

- ❖ What is Deep Learning Networks?
- ❖ Why Deep Learning Networks?
- ❖ How Deep Learning Works?
- ❖ Feature Extraction
- ❖ Working of Deep Network

- ❖ Training using Backpropagation
- ❖ Variants of Gradient Descent
- ❖ Types of Deep Networks
- ❖ Feed forward neural networks (FNN)
- ❖ Convolutional neural networks (CNN)
- ❖ Recurrent Neural networks (RNN)
- ❖ Generative Adversely Neural Networks (GAN)
- ❖ Restrict Boltzmann Machine (RBM)

Deep Learning with Keras

- ❖ Define Keras
- ❖ How to compose Models in Keras?
- ❖ Sequential Composition
- ❖ Functional Composition
- ❖ Predefined Neural Network Layers
- ❖ What is Batch Normalization?
- ❖ Saving and Loading a model with Keras
- ❖ Customizing the Training Process
- ❖ Intuitively building networks with Keras

Convolutional Neural Networks (CNN)

- ❖ Introduction to Convolutional Neural Networks
- ❖ CNN Applications
- ❖ Architecture of a Convolutional Neural Network
- ❖ Convolution and Pooling layers in a CNN
- ❖ Understanding and Visualizing CNN
- ❖ Transfer Learning and Fine-tuning Convolutional Neural Networks

Recurrent Neural Network (RNN)

- ❖ Intro to RNN Model
- ❖ Application use cases of RNN
- ❖ Modelling sequences
- ❖ Training RNNs with Backpropagation
- ❖ Long Short-Term Memory (LSTM)
- ❖ Recursive Neural Tensor Network Theory
- ❖ Recurrent Neural Network Model
- ❖ Time Series Forecasting

Natural Language Processing

- ❖ NLP with python
- ❖ Bags of words
- ❖ Stemming
- ❖ Tokenization
- ❖ Lemmatization
- ❖ TF-IDF
- ❖ Sentiment Analysis

Overview of Tensor Flow

- ❖ What is Tensor Flow?
- ❖ Tensor Flow code-basics
- ❖ Graph Visualization
- ❖ Constants, Placeholders, Variables
- ❖ Tensor flow Basic Operations
- ❖ Linear Regression with Tensor Flow
- ❖ Logistic Regression with Tensor Flow
- ❖ K Nearest Neighbor algorithm with Tensor Flow
- ❖ K-Means classifier with Tensor Flow
- ❖ Random Forest classifier with Tensor Flow

Neural Networks Using Tensor Flow

- ❖ Quick recap of Neural Networks
- ❖ Activation Functions, hidden layers, hidden units
- ❖ Illustrate & Training a Perceptron
- ❖ Important Parameters of Perceptron
- ❖ Understand limitations of A Single Layer Perceptron
- ❖ Illustrate Multi-Layer Perceptron
- ❖ Back-propagation – Learning Algorithm
- ❖ Understand Back-propagation – Using Neural Network Example
- ❖ TensorBoard

Module 7: Power BI

Introduction to Power BI

- ❖ Overview of BI concepts
- ❖ Why we need BI?
- ❖ Introduction to SSBI
- ❖ SSBI Tools
- ❖ Why Power BI?
- ❖ What is Power BI?
- ❖ Building Blocks of Power BI

- ❖ Getting started with Power BI Desktop
- ❖ Get Power BI Tools
- ❖ Introduction to Tools and Terminology
- ❖ Dashboard in Minutes
- ❖ Refreshing Power BI Service Data
- ❖ Interacting with your Dashboards
- ❖ Sharing Dashboards and Reports

Power BI Desktop

- ❖ Power BI Desktop
- ❖ Power BI Dashboards
- ❖ Power BI Q & A
- ❖ Extracting data from various sources
- ❖ Workspaces in Power BI
- ❖ Data Transformation
- ❖ Measures and Calculated Columns
- ❖ Query Editor

Modelling with Power BI

- ❖ Introduction to Modelling
- ❖ Modelling Data
- ❖ Manage Data Relationship

- ❖ Optimize Data Models
- ❖ Cardinality and Cross Filtering
- ❖ Default Summarization & Sort by
- ❖ Creating Calculated Columns
- ❖ Creating Measures & Quick Measures

Data Analysis Expressions (DAX)

- ❖ What is DAX?
- ❖ Data Types in DAX
- ❖ Calculation Types
- ❖ Syntax, Functions, Context Options
- ❖ DAX Functions
- ❖ Date and Time
- ❖ Time Intelligence
- ❖ Information
- ❖ Logical
- ❖ Mathematical
- ❖ Statistical
- ❖ Text and Aggregate
- ❖ Measures in DAX

Publishing and Sharing

- ❖ Introduction and Sharing Options Overview
- ❖ Publish from Power BI Desktop and Publish to Web
- ❖ Share Dashboard with Power BI Service
- ❖ Workspaces and Apps (Power BI Pro) and Content Packs (Power BI Pro)
- ❖ Print or Save as PDF and Row Level Security (Power BI Pro)
- ❖ Export Data from a Visualization and Publishing for Mobile Apps
- ❖ Export to PowerPoint and Sharing Options Summary

Refreshing Datasets

- ❖ Understanding Data Refresh
- ❖ Personal Gateway (Power BI Pro and 64-bit Windows)
- ❖ Replacing a Dataset and Troubleshooting Refreshing

Module 8: Data Science Professionals - Live Projects

- ❖ Managing credit card Risks
- ❖ Bank Loan default classification
- ❖ YouTube Viewers prediction
- ❖ Super store Analytics (E-commerce)

- ❖ Buying and selling cars prediction (like OLX process)
- ❖ Advanced House price prediction
- ❖ Analytics on HR decisions
- ❖ Survival of the fittest
- ❖ Twitter Analysis
- ❖ Flight price prediction

Who We Are

ZebLearn co-founded by highly experienced Industry professionals and alumni of BITS Pilani, Amity and Indraprastha University is headquartered at Noida is a fastest growing solution provider in the field of EZebLearnion, IT, Consulting and Corporate Trainings.

We have continuously expanded our operation and currently operates in all major cities of India. With efforts of a strong team of committed, dedicated and highly trained technical experts and state of the art Technological infrastructure, we provide quality services to meet the over evolving need of our clients. Combining award-winning experiences, professional expertise, and innovative initiatives, our group provides clients with relevant products and quality services.

About Us

ZebLearn is an ISO 9001:2015(QMS) Certified Company. ZebLearn is on the mission, to work for the promotion of latest technologies in India. The ZebLearn has the parental company named as www.placementbaba.com which 15+ year old company which provides free placement to candidates. The ZebLearn was incorporated with an aim to providing a hugest array of training, development, advancement, certification examination, and recruitment services in a one-stop way to the working professionals, corporate clientele, or students-and to empowering the IT world.

About Us

ZebLearn is an ISO 9001:2015(QMS) Certified Company. ZebLearn is on the mission, to work for the promotion of latest technologies in India.

The ZebLearn has the parental company named as

www.placementbaba.com which 15+ year old company which provides About us

free placement to candidates. The ZebLearn was incorporated with an aim to providing a hugest array of training, development, advancement, certification examination, and recruitment services in a one-stop way to the working professionals, corporate clientele, or students-and to empowering the IT world. Being #1 learning partner, we have a strong portfolio of more than 400 IT or non-IT careerbased courses of premier IT vendors such as Cisco, Red Hat, Oracle, Microsoft, SAP, SAP, PMP, VMware, etc. We continuously follow the industrial curriculum of these vendors and align it with the course content offered by our institute. As # 1 recruitment partner, the ZebLearn has networked with top-notch recruitment partners including HCL, IBM, Accenture, Wipro, Tech Mahindra, TCS, Tesla, Aditi, Infosys, Infotech, Microsoft, Sapient, Birla, TATA, Aditi, Capgemini, etc. in every nook and corner- across India and around the country.

How ZebLearn is Helpful?

Like other educational and training industry at ZebLearn you will be offered varieties programs, but the instructors makes the difference and make ZebLearn stand out from others. We have a variety of skilled and trained trainers whose approach is different which you can see anywhere. ZebLearn contributes a lot to the knowledge of its trainees, and we try our level hard to contribute the best to increase our trainee's ability so that they stand out from others and whatever they contribute to the corporate world automatically becomes productive. Not only the fresher but also the corporates who are not able to deal with the rising technology and software are also helped here. We try our level best to deliver our services to every corner of the world by the help of customized educational. Our motto is to deliver the best services to you and that is why we have taken the customized approach because we do not want you to compromise with your educational.

It is not necessary that you have to leave your job in order to make-up with us. You can contact our experts and can get the best result. To serve you we are always at your service, you can contact us as and when you get time and clear your queries.
